

# **ECOFLUID** HIGH PERFORMANCE WELL WASH SURFACTANT

---

**DESCRIPTION** **ECOFLUID** is a non-toxic biodegradable water based surfactant used in well wash applications for removing oil and grease from the inside of casing before perforating. **ECOFLUID** works by dispersing oil, grease and pipe dope into a completely stable micro-emulsion which eliminates any sheen.

**ADVANTAGES**

- Non-toxic
- Non-hazardous
- Non-flammable
- Biodegradable

**APPLICATION** Clean spacer tank and all lines thoroughly. Pump seawater or brine through well casing until clean. Dilute **ECOFLUID** with clean Water from 1:5 to 1:10

**PROPERTIES**

<b>Composition</b> .....	Water based surfactant
<b>Color</b> .....	Clear liquid
<b>Specific Gravity</b> .....	1.056
<b>pH</b> .....	12.0

**PACKAGING** **ECOFLUID** is packaged in 55 gallon drums
